PORTFOLIO APPROVED RETIREMENT FUNDS

## Assets passing down the generations

### The APT Portfolio Approved Retirement Fund

By transferring your accumulated pension assets into an APT Portfolio Approved Retirement Fund when you retire, you remain the owner of your pension capital and control where and how it is invested. APT Financial Services has developed a bespoke ARF structure that allows you to choose from a wide range of funds from competing managers, as well as offering other portfolio options such as direct equities and property investments. And because you own the fund, the assets remaining in your ARF when you die can be passed to your spouse, your family, or your estate.

For more information, speak to an APT consultant  
on 01 206 3010 or email [ARF@alliedpensions.com](mailto:ARF@alliedpensions.com)

APT Financial Services Limited trading as Allied Pension Trustees is authorised by the Financial Regulator under the Investment Intermediaries Act, 1995.

Investments may fall as well as rise in value.
