

# DuPont Personal Protection

TYVEK® and TYCHEM® are the brand names for a complete and diverse range of limited-use protective clothing produced by DuPont and a few well selected licensed garment manufacturers satisfying stringent quality standards defined by DuPont. The garments are available in a multitude of designs, ranging from simple coveralls, to cleanroom tailored suits, right up to ventilated suits with integral visors and boots.

All garments are CE certified as PPE (category III), Chemical Protective Clothing.
