

## Protecting your Future

Unlike other hip protectors Carresse™ uniquely distributes any impact over a maximum area minimising the risk of hip fracture, bruising and soft tissue damage, reducing pain and discomfort for the wearer.

Carresse™ is a hip protection undergarment designed by surgical appliance manufacturers and qualified orthotists, and it is independently tested to meet the needs of an increasingly aged, yet mobile population.

## Caresse™ Hip Protector - Protecting your Future

Every year, in excess of 60,000 people in the UK and over 350,000 in the USA sustain a hip fracture. 25% never recover and many lose the freedom and independence they previously enjoyed, becoming housebound and dependant on constant family or nursing care. In the UK over 40,000 people have falls within the home or garden.

Caresse™ is, by design, simply the best Hip Impact Protection System available. Caresse™ incorporates impact absorption and patented edge pressure distribution technology, which significantly reduces bruising and soft tissue damage.

The undergarment consists of pads for both hips. The pads are integrally sewn and manufactured from moulded polypropylene and plastazote creating a firm, yet flexible pad capable of cushioning falls and dissipating impact loads away from the hip area over a large area of soft tissue which, additionally, provides resilience against soft tissue trauma (bruising).

We highly recommend consulting with your healthcare provider about using this product.

### Designed for Protection

- ▶ Up to 50% more effective than other hip protectors
- ▶ Minimizes the risk of hip fracture, bruising and soft tissue damage

### Designed for Comfort

- ▶ Comfortable, close fitting, everyday undergarment
- ▶ Integrated Hip Protection System for optimum comfort
- ▶ Body contoured for minimal visibility

### Designed for Ease of Use

- ▶ Easy to put on, easy to take off
- ▶ Can be used with incontinence pads
- ▶ Can be worn all day and all night for maximum protection
- ▶ Wash at 60°C ▶ Can be tumble dried

### Designed for Freedom

- ▶ Designer styled undergarment
- ▶ Gives you the confidence to retain your independence
- ▶ Choice of colours and sizes for men and women

WAIST (in)	30-32	33-35	36-38	39-41	42-45
WAIST (cm)	76-81	84-89	91-96	99-104	107-114

## Caresse™ Hip Protector – Measurement Guide

To determine your correct size, measure the widest area around your hips (see above), then refer to the size chart above. The tape measure should be snug, but not tight.
