Positive Momentum™

Replay are at the forefront of wheelchair innovation and design and as such are the choice for mobility, with a long established reputation for innovation, quality and service.

The 'Modulo' comfort wheelchair reclines and supports the entire body, lightweight in construction and well balanced enabling the frailest of people to push a patient in it whilst the manoeuvrability of the chair facilitates optimum ease of use for the self propelled.

the 'all-day' adjustable comfort chair

The Modulo is the most versatile, adjustable all day chair and comes complete with multiple positioning choices and a 50° recline position.
