

# STAXI System

## Positive Momentum™

STAXI System is the world's leading stackable transport chair system. It's designed for people with mobility issues that prevent them from comfortably and safely walking long distances found in large size facilities such as hospitals and airports. Patent protected STAXI is hard to steal, simple to use, easy to find, built to last and backed by a three year unlimited parts warranty.

STAXI replaces the need for 70% of wheelchairs in industrial, commercial and institutional settings. Most hospital clients start with an order of 12 to 15 chairs for every 100 beds.

theft-resistant  
stackable  
transport chair –  
wheelchair alternative

- ◆ Non folding design, prevents theft by car
- ◆ No removable parts to be lost or stolen
- ◆ Easy to push and steer with one hand
- ◆ Weather proof components for indoor and outdoor use
- ◆ Fail-safe brake and anti-tip wheels for added safety
- ◆ High quality urethane casters for a smooth, reliable ride
- ◆ Comfortable, weather resistant seat and backrest cushions
- ◆ Space saving stackable design – Uses 1/3 less space than wheelchairs
- ◆ Armrests lift to accommodate larger passengers and for easy transfer and exit
- ◆ Holds up to 204 kg, nearly double the weight capacity of many transport wheelchairs
- ◆ User friendly coin return mechanism for maximum security
- ◆ Choice of stands – Provides a central location and keeps entrances tidy
- ◆ Two storage areas for convenience
