

tilt in space

Positive Momentum™

Remploy Healthcare are at the forefront of wheelchair innovative design and practical mobility solutions. We pride ourselves on providing reliable, quality products that meet the specific needs of both prescriber and end-user, backed by our continued commitment to optimum Customer Service.

Remploy's "Tilt in Space" wheelchair tilts and reclines to ergonomically support and comfort the occupant. Additional support is available through the use of contoured thoracic pads and complimentary headrest systems. Padded pressure-relief cushioning enhances the chair's usability and clinical application providing total comfort for the user.
