For over 30 years, Rehab Logistics has specialised in delivering total packaging solutions for the electronics, pharmaceutical, telecommunications and food sectors, producing some five million packaging units annually.

At our newly-upgraded facilities in Kilkenny we offer premium packaging materials – both conventional Regular Slotted Cartons and Die-cut Cartons – customised to the needs of your business.

As specialists in the design and manufacture of packaging solutions, we will work with you to develop a specification for your particular packaging need and provide a prototype within 15 working days. We can efficiently undertake both low and high volume orders, with scheduled deliveries ranging from weekly to monthly.

You see, at Rehab Logistics, adaptability and responsiveness are central to everything that we do. Our strength lies in our quick response times and, of course, our very competitive pricing deals. Together, these factors make us the number one choice for our wide range of customers that include Glanbia, B&C Manufacturing, Compsey and MJ Gleeson.

In addition to packaging, we also offer an assembly service and can supply assembled packaging comprising anti-static foam and inserts ready for use on your production line, or undertake specific product fill as per your requirements.

By doing business with Rehab Logistics, your company's commitment to safeguarding the environment for future generations is secure in the knowledge that only recycled cardboard is used in the manufacture of our packaging products.

So why not get in touch with the experts today for all your packaging solution needs?

See over for what our customers have to say about our Packaging Solutions Service.

Packaging Solutions

Did you know that every tonne of recycled cardboard can save 17 trees, 380 gallons of oil, three cubic yards of landfill space, 4,000 kilowatts of energy and 7,000 gallons of water?

"For many years now, MJ Gleeson has worked closely with Rehab Logistics in Kilkenny for most of its corrugated box requirements. Rehab Logistics has always been responsive and courteous in delivering a top quality product when required, every time. With our Tipperary Water production lines, demands can fluctuate regularly, and Rehab Logistics has been an excellent supplier in ensuring we meet these challenges."

Paddy Tynan, General Manager,
MJ Gleeson

**MANUFACTURING
ENTERPRISES LTD.**

"Rehab Logistics continuously provides B&C Manufacturing with an outstanding service in terms of product quality and on-time delivery, which in turn ensures we can deliver likewise to all our customers."

Martin Butler, Managing Director,
B&C Manufacturing
Enterprises Ltd.
